

GARDEN AND COMMON GROUNDS MAINTENANCE 2024

This schedule provides the dates you should expect contractors to carry out your garden and grounds maintenance. Your contractor aims to cut your grass on the dates specified however, this is weather dependent.

You pay a service charge for 14 cuts per year and strimming is carried out every second visit. One treatment of fertiliser will be applied mid-late season and your contractor will notify you of the date this will be carried out.

You should ensure your garden is fully accessible, free from dog/cat faeces, and have no obstructions. You should note that contractors will not move any obstructions.

Please direct any queries to your Housing Officer in the first instance.

KIRKWALL

Area	Contractor	April	May	June	July	August	September	October
